belloo + contuu

simply clean...

...simply good

belloo-bag

Our belloo waste bag is a simple and inexpensive essential for dog waste removal. You can put it easily into your pocket or bag or you can tie it onto your dog's leash. Our dog waste bags are all made from polyethylene – with the exception of the bio-bag. PE films are absolutely harmless for the environment. They may be disposed of worry-free with normal refuse.

Dark brown bag

Art. N° 209.51
Carton of 2500 bags
50 packs of 50 units
200 x 350 + 30 mm edge of the pack, 13 µ

Red bag

Art. N° 209.59
Carton of 2000 bags
40 packs of 50 units
200 x 350 + 30 mm edge of the pack, 15 µ

Bio bag

manufactured from regrowing raw materials
Art. N° 210.71
Carton of 2000 bags
40 packs of 50 units
200 x 350 + 30 mm edge of the pack, 17 µ

Dark grey bag

made from recycled material
Art. N° 210.52
Carton of 2500 bags
50 packs of 50 units
200 x 350 + 30 mm edge of the pack, 13 µ

Grippy

The Grippy prevents its users from feeling the touch of dog waste. The Grippy stays clean and can be used afterwards as often as required.
Art. N° 211.00
Carton of 20 units

belloo - combi - sevi

The belloo-combi-sevi perfectly combines functionality with aesthetics. It convinces through its easy use as well as its elegant appearance. On both sides, a dog waste bag dispenser is installed that can be easily refilled. It is easy to remove the dispensers in order to refill them with new bags. The bags can be placed inside in packs at any time. There is no need to wait until the last bag is taken out. Therefore, it is prevented that the dispenser suddenly is empty.

belloo-luca

Our belloo-luca pleases with its elegant design and has a motivating effect on dog owners. If there are enough litter bins, the belloo dog waste disposal system can be retrofitted in an efficient way. With regard to the mounting of our belloo-luca, you can fix it anywhere: on an already existing litter bin or on a post or on a wall. In order to refill the dispenser, new bags can be placed inside in packs at any time. There is no need to wait until the last bag is taken out. Therefore, it is prevented that the dispenser suddenly is empty.
